

## **Chinese Language Project for Advanced Students**

### **Project Introduction:**

China University of Geosciences has launched Chinese language project for advanced students, with a view to promoting Chinese language to the world, satisfying international students' needs to further study Chinese language, and enhancing the world's understanding of Chinese language and culture. The course is based on semester, which is 18 weeks; the spring semester is from February to June, and the fall semester is from September to January of the next year (the specific time shall be subject to the possible adjustment of each year).

### **Course Offering:**

The students will be divided into classes according to their Chinese proficiency level, and all courses of different levels consist of Chinese language, listening, spoken language, writing, reading, lettering and other compulsory courses of Chinese language skill. To satisfy requirements of students and encourage students to study Chinese, we also offer a dozen of optional courses of Chinese language culture and knowledge such as Chinese history and culture, Chinese Geology & Geophysics as well as cultural experience activities such as Chinese calligraphy, Chinese painting, HSK tutorship, Tai Chi, Chinese Kungfu and Chinese seal cutting.

**Length of schooling:** Half a year- 2 years. Spring semester: February-July of each year. Fall semester: September to January of next year.

**Tuition standard:** (RMB) 12,000 /semester

\* Final tuition standard shall be subject to the admission pricing.

### **Enrollment Target:**

Foreign nationals with high school graduate or above, aged 18 to 55, sound in health and mind, holding valid foreign passport

### **Application time:**

Spring semester: Submit application on October 1 of each year, send out application materials before December 20, and the application and sending dates shall be subject to the postmark.

Fall semester: Submit application in February of each year, send out application materials before June 20, and the application and sending dates shall be subject to the postmark.

### **Application Materials:**

1. 1 *Admission Application Form of China University of Geosciences (Wuhan) for International Students (Advanced Students)* (which is automatically generated from online registration), it shall be filled in Chinese or in English, printed and signed by applicant, and pasted with photo;
2. 1 photocopy of passport, which shall be an ordinary passport within valid period;

#### **Review and Admission:**

After the applicant’s application materials are completed, we will enroll the best applicants by selection in light of their academic achievement, comprehensive quality, recommendation, desired major, etc. We will publish the review comments and admission results in the online system of International Education College within 1

month upon the receipt of application materials; the *Offer, Visa Application Form for Study in China* (JW202) and other admission materials will be issued in late June. Applicants are recommended to timely log on online registration system (<http://cug.17gz.org/>) to search admission results and *Offer* sending details.

### **Visa application and enrollment:**

Early September, 2014, please refer to Letter of Admission for exact time. The admitted students may apply for your visa at the Chinese Embassy in your country with your *Letter of Admission, Visa Application for Study in China* and other required materials. You must complete enrollment and registration with the above materials by the date stipulated in Letter of Admission. For more details about visa application, please refer to the instruction sent with Letter of Admission.

### **Accommodation Information**

China University of Geosciences (Wuhan) allocates apartment of different specification and conditions to international students. There are three room types for choice: single room (with independent toilet), double room (share one toilet) and three-occupant apartment (3 single rooms and a toilet). There are TV, telephone, air conditioner, water heater, network jack and other furniture equipped in the room.

The university only arranges a limited number of apartment rooms for overseas student. The students who do not have Chinese Government Scholarship and fail to reserve the apartment need to arrange your accommodation by yourself.
